

The police department has started a new program this year to assist residents; many senior or even younger residents who live alone may need help with medical or other type of issues. If an incident happens, you might be unable to inform the safety forces who to contact for your behavior, be it family members or a close friend.

We have a "Personal Contact Information Form" to list any special needs and your emergency contact information. This form will be shared with the Thompson Fire Department and will only be used by our safety forces

Personal Contact Information
